

AD. NISTRATIVE - INTERNAL USE ONLY

INFORMATION AND MANAGEMENT SUPPORT STAFF  
WEEKLY REPORT FOR PERIOD ENDING 18 JUNE 1986

1. Progress Report on Tasks Assigned by the DCI/DDCI:

No tasks assigned during this reporting period.

2. Items or Events of Major Interest that have Occurred During the Preceding Week:

A. DAS

(1) Because the size of Wang libraries, both document and visual memory, has increased at a rapid rate, the percentage of disk space used exceeded the acceptable level. On 12 June 1986, a notice was sent to components whose libraries were exceptionally large, requesting that specific steps be taken to reduce the amount of data in the libraries. The response was immediate and positive. Security Staff archived 203 documents; Real Estate and Construction Division Registry deleted over 3,000 visual memory records; and Procurement Management Staff deleted four visual memory cabinets entirely. While these are the most dramatic responses, other components are working to delete unneeded material, thus making available more space and improving system performance.

(2) [ ] DBM for CONIF, will provide three lectures on the system to the COTR course and OF contracts seminar next week.

(3) The C/SS has provided to PMS three options that could correct a potential security deficiency in the numbering of classified procurement actions. Regardless of the option selected, CONIF would have to under-go changes--and possibly major ones. The situation is currently under study.

(4) Several IMSS planning and data processing personnel have been receiving detailed briefings from SD managers so as to better understand functional activities. [ ]
